Norrton Alpha Correlation vs SBX Index

Fund Manager's Comment (Norrton Active)

February was a volatile month after a large set back at the beginning of the month but the market recovered and ended more or less flat. The large caps performed better than the small caps. It was an intense month with the Q4 results coming in from most of the companies. The forward-looking comments in the reports state that 2018 has started well and it supports our view that it is too early to take down our cyclical exposure in the fund.

Norrton Active was down 0,23 and the SBX index was down 0,41. The positive contributors were Husqvarna, Mycronic, Ocean Yield Swedbank and Skanska. The negative contributors were Hansa Medical, Atlas Copco Medicover, Academedia and ABB.
