Norrn Alpha Correlation vs SBX Index

Fund Manager's comment (Norrn Active)

August was another positive month in the Nordics. Sweden was up 3,18%, Finland 2%, Norway 1,2% and Denmark 1%. Small caps underperformed the large caps on an aggregated basis. The strongest sectors in the Nordic region were Basic materials and Technology.

Global macro outcome weakened somewhat relative to expectations but continued to indicate strong momentum in the global economy. Trade war was in focus again and the US conflict with Turkey put pressure on Turkey's currency.

The USD strengthened by +4.0% vs the SEK. The EUR strengthened by +3.4% vs the SEK.

Norrn Active was up 1,8% and SBX index was up 3,2%.

The main positive contributors were Hansa Medical, Essity, SEB, ABB and Mycronic. The main negative contributors was Academedia, Ocean Yield, IAR, Trelleborg and Sandvik.
